ALL-ON-4[®] Surgical Protocol Clinical Course.

LIVE SURGERY

SPEAKER

Dr Tommaso Grandi

Member of the Editorial Board of the European Journal of Oral Implantology. Author of several publications in the most renowned peer-reviewed international journals about implantology. He takes part at international multicenter studies on implant dentistry. He is member of the Implant Council of the British Academy of Implant & Restorative Dentistry. He lectures at courses and congresses in Italy and abroad.

COURSE OVERVIEW

This is a basic to advanced course for new users. The participants will understand the benefits of JDentalCare implant system in immediate implantation and immediate loading. Focus will be on the primary stability of JD implants in advanced sessions with Full-arch on 4/6 dental implant techniques.

The Full Arch on 4/6 protocol is an innovative surgical procedure for the rehabilitation of edentulous jaws or patients with terminal dentition. By taking advantage of the dense bone available in the anterior maxilla and between the mandibular foramina, this widely applicable surgical technique allows for the treatment of a significantly greater number of patients, while avoiding the need for complex, time consuming and often debilitating bone grafting procedures.

This course will teach you the skills and know-how to treat edentulous patients using the Full arch on 4/6 surgical protocol, from patient selection to treatment planning, all the way through to the fitting of the prosthesis so you can offer immediate function to your patients. Hopefully when you get back to your office, you will be able to call back a few patients to offer them this new alternative.

PROGRAM

- Principles of JD Implant design.
- Re-thinking oral rehabilitation.
- Patient selection and treatment planning Full Arch on 4/6 protocol surgeries in the maxilla and/or mandible.
- Surgical protocol and primary stability.
- Placement of prosthesis.
- The esthetic possibilities of the Full Arch on 4/6 surgical protocol - Prosthetic Rehabilitation.
- Scientific support on JD implant system.
- Hands on Models-based training on JD implant system.

LIVE SURGERY

INCLUDED IN THE PROGRAM

- VISIT TO THE FERRARI MUSEUM IN MARANELLO AND TEST DRIVE
- VISIT TO JDENTALCARE HEADQUARTERS AND TRAINING CENTER
- GALA DINNER WITH TYPICAL FOOD TASTING
