JULY 5-6 2019  
RIMINI PALACONGRESSI**

**AMARCORD**

## A warm welcome to **JD SYMPOSIUM 2019 IN RIMINI**

From the past experiences we developed innovations. This is the spirit of JDSymposium 2019 in Rimini. This 7th edition will focus on the lessons we learned from the past to develop new skills and innovations for our daily clinical practice: the newest strategies in minimally invasive Restorative & Periodontal Esthetics, new Digital 3D Work flows, as well as a specific focus on the Full Arch patient. Our speakers from all around the globe will share with you their renowned expertise and try to give you new procedures that could advance your practice. Join us on the journey to our common fundamental goal – long-term success for your patients.

## FELLINI AND THE CITY OF MEMORY: RIMINI

Rimini is an open, hospitable and people-friendly city. In the center, the ancient narrow streets are popular meeting places for young people with a lot of pubs, shops and big restaurants. For more than 160 years Rimini has been in the memories and dreams of generations of vacationers. The secret of its success is the friendliness and hospitality of its inhabitants and a territory that offers 15 km of beach, 230 coloured bathing establishments, numerous hotels and more than 2000 years of history. Here the sea is a way of life, the scenery for Fellini's films. Rimini in fact is the city of Federico Fellini, "a dimension of memory" as Fellini wrote: everything in the city is characterized by the Fellini's memory, which is the soul of the city.

Are you ready to immerse yourself in the atmosphere of a Fellini's film set?
